Value of the course: In India is a largest cultural hearth place of the world and India is blessed with rich and diverse heritage of cultural traditions. The different parts of the plant have traditional medicinal uses to cure various diseases from the beginning of human society. The term 'herb' refers for any part of the plant like fruit, seed, bark, flower, leaf, stigma or a root as well as a non-woody plant. These medicinal plants are also used as food, flavonoid, medicine or perfume and also in certain spiritual activities. Plant medicines are in wide use around the world. Medicinal plants such as *Alovera* , *Harjora* , *Satamuli*, *Basak*, *Kalmegh*, *Thalkuni*, *Pudina*, *Aloe*, *Tulsi*, *Neem*, *Turmeric* and *Ginger* cure several common ailments. These are considered as home remedies in many parts of the country. The forest in India is the principal repository of large number of medicinal and aromatic plants, which are largely collected as raw materials for manufacture of drugs and perfumery products. It is known fact that lots of consumers are using Basil (Tulsi) for making medicines, black tea, in pooja and other activities in their day to day life. Medicinal plants used on various severe diseases.
